PATIO COVERS

CARPORTS

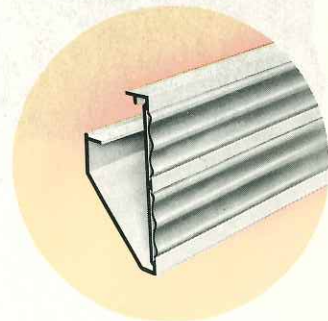

COVERED WALKWAYS

One look and you can tell that here is design at its finest. NAVACO STRUCTURAL PANELS are built to meet rigid building code requirements and still provide the ultimate in beauty and versatility. Its all aluminum construction means years of trouble-free service. Its special Hi-Bake enamel finish over anodized aluminum forms a paint and metal bond that is guaranteed not to chip, flake or peel. And there is a wide assortment of color trims, post supports and drainage systems.

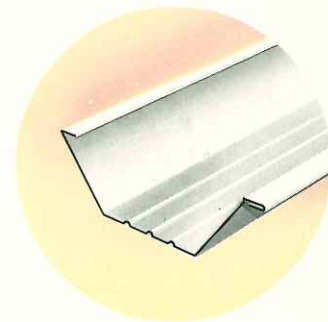

EXTRUDED FASCIA

Made of anodized aluminum extruded for maximum rigidity. Trim slats available in a choice of 15 decorator colors. Note the concealed gutter.

PANEL

Unique design gives greater roof support and rigidity. Panels interlock for maximum protection and give a clean, uncluttered appearance. No unsightly understructures.

NOTE:

All illustrations herein were custom fabricated using NAVACO STRUCTURAL PANEL components.

Harmonizing color trim, decorative ornamental columns and the elimination of unsightly bracing make NAVACO PATIO COVERS the ultimate in beauty and utility — year 'round!

Rain or shine, a covered walkway and patio cover like this are welcome additions to any home. Notice the harmonizing color trim . . . the clean white understructure.

Imagine converting an open patio into a year 'round living center like this! NAVACO STRUCTURAL PANELS permit screening or glass enclosures.

A vintage light green car is parked under a white NAVACO carport. The carport has a flat roof and decorative columns with a lattice pattern. The background is filled with lush green trees and foliage. The car is a two-door model with a dark trim along the side.

The ideal solution for the
"two car" family!
